Dear Lightmoor Village Resident,

Last month you received a letter from us regarding The Bache access road and permission to allow David Wilson Homes (DWH) to access it.

We apologised for not consulting with you about this and a decision was made to pause the process until discussions with residents had taken place.

Following the residents drop-in session in May, a group of residents came together last week to discuss a future meeting with the other stakeholders involved in the process.

At that meeting it was clear that residents were angry and upset about the decision.

As a result of these discussions we have decided to withdraw the access right to The Bache for DWH.

There may be a legal dispute with DWH, as they believe they can still access the road for construction traffic, but that will be dealt with separately.

We would like to share our thanks to the residents who took the time to come together and share their views and opinions.

Lightmoor Village is a wonderful and unique place, and we are committed to making it better and involving residents in making this happen. We would like to apologise again for not consulting with you previously. We should have talked and listened to you, and we did not. We are sorry.

If you would like to continue being involved in the decision making processes for Lightmoor Village as a resident representative, or being part of focus groups for different projects, we would like to hear from you.

Please contact Fleur Hemming, Community Development and Involvement Manager on 01952 898524 or email FleurHemming@bvt.org.uk

Yours sincerely

Peter Richmond
Bournville Village Trust, Chief Executive.
